

Screenshots – Coffee Machine Ordering App (Power Apps)

1. Home Screen

This is the initial home screen where users can begin placing a coffee order.

When a user selects a coffee machine, the **Compare** and **Clear Item** options are enabled, and machines priced over 10,000 are highlighted in red.

2. Ordering Page

Users can choose the coffee type, size, and additional options on this screen before submitting the order.

Perfection is brewing.

4. Model-Driven App View

The Model-Driven App allows administrators to view and manage orders using Dataverse tables.

The screenshot displays the 'Machine Procurement' app interface in Power Apps. The left sidebar shows navigation options: Home, Recent, Pinned, and Orders. The 'Orders' section is expanded, showing 'Machine Orders'. The main view is a table titled 'Active Machine Orders'. The table has columns for Machine Name, Created On, Approval Status, Estimated Ship Date, Price, and Status. The table contains 17 rows of data, showing various coffee makers and their prices. The interface includes a top navigation bar with 'Power Apps' and 'Machine Procurement' labels, and a right sidebar with icons for search, add, filter, settings, help, and a user profile icon labeled 'DS'. The table view includes a toolbar with options like 'Show Chart', 'New', 'Delete', 'Refresh', 'Visualize this view', 'Email a Link', 'Flow', and 'Share'. The table also has a search bar and a 'Filter by keyword' option.

<input type="checkbox"/> Machine Name ↑	Created On	Approval Status	Estimated Ship Date	Price	Status
